

# The ConnectTeach Difference

We approach education as *the* solution to societal problems through practical, relevant problem solving skills, empowering students and teachers to become effective changemakers in their communities.

## Education

Gender Equity

Conflict Resolution

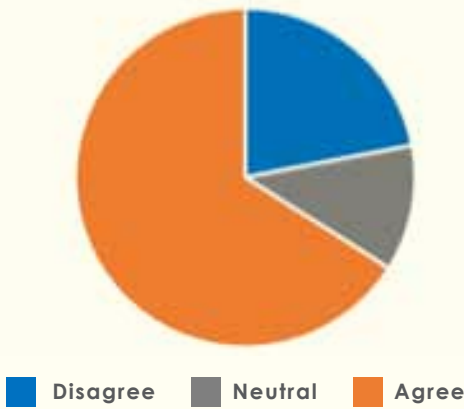

Economic and Social Potential

Community Health and Well-Being

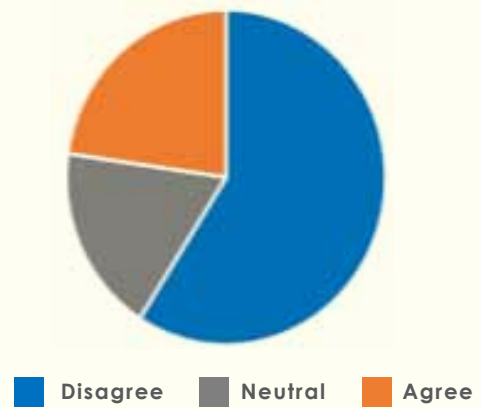

We're making a difference in changing attitudes that stifle gender equity.

### STUDENT ATTITUDES IN INDIA

**Government School (2016 Control)**  
Boys are naturally better at science and technology than girls

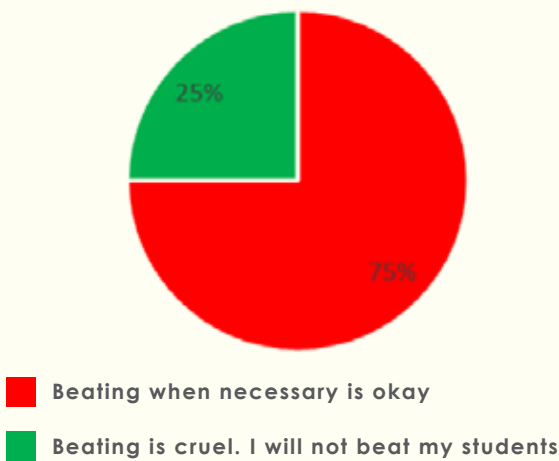

**Hope Dell (2016 Treatment)**  
Boys are naturally better at science and technology than girls

And we're changing teachers' beliefs and practices that harm students and impede learning.

### WORKSHOP RESULTS IN INDIA

Start of ConnectTeach Workshop

End of ConnectTeach Workshop

We employ problem-based learning in order for students to be equipped as adults to resolve the problems in their communities.

### PROBLEM-BASED PROJECT IDEAS

- Electricity/ Power Cuts
- Garbage in Road
- Use of Plastics (Burning/ Waste)
- Caste Conflicts
- Children Out of School
- Air Pollution
- Improper Drainage
- Violence/ Fighting
